www.naturalwireless.com/business

Faster Speed, Better Performance and Lower Price

Natural Wireless delivers symmetrical broadband speeds from 3 Mbps to 1 Gbps via its own intelligent and redundant high performance network. Customers directly benefit from **faster connections, ultra-low latency (< 1ms)** at **lower costs than other providers.**

A Proven Wireless Internet Service Provider

For a decade, Natural Wireless has been providing Wireless Internet services to businesses, enterprise customers, residential complexes, hotels, medical centers, and convention centers. Natural Wireless is independently owned and operated, customers are guaranteed a highly reliable connection with extraordinary performance and guaranteed uptime.

Wireless Internet Outperforms & Costs Less

Our ultra-low-latency wireless backhaul network is designed to meet our customers' symmetrical high bandwidth needs:

Guaranteed Reliability

**99.99%
Uptime**

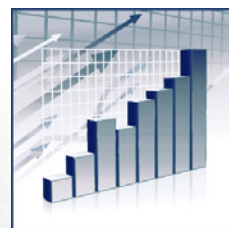

Natural Wireless provides a service level agreement (SLA) on all circuits, guaranteeing reliability and 99.99% uptime.

Superior Local Support

Remote Network Management monitored by local support teams 24 hours a day, 7 days a week.

Guaranteed Reliability - Higher Productivity

Natural Wireless offers the greatest value in business Internet:

- o Symmetrical download/upload connection
- o Speeds up to 1 Gbps available
- o Dedicated customer service with reliability guaranteed
